MONTGOMERY COUNTY DINING, LODGING, AND SPECIALTY GUIDE NOW AVAILABLE

Fonda, NY - The Montgomery County Chamber of Commerce has announced their Dining, Lodging and Specialty Guides are now available. This year's guide has been updated with a new feature.

The Dining and Lodging Guide features the hospitality available throughout the county. "This is a great resource for people inquiring about our community" says Gina DaBiere-Gibbs, Tourism Director. "It is also a resource the residents of Montgomery County should each have. People are always looking for a new restaurant to experience; this can inspire them to try something new and exciting!"

Plus, the Guide now samples the specialty shops of Montgomery County. "We wanted to add that extra promotion for those interested in visiting. It is a great time for this guide to come out. The holidays are busy enough without having to drive out of town for that special gift" says DaBiere-Gibbs. "The perfect gift is waiting in your own backyard."

The Chamber is the Tourism Promotion Agency (TPA) for the county. The TPA allocates / Love NY matching funds for promotions such as the Dining, Lodging, and Specialty Guide as well as the Fall/Winter Calendar of Events.

The Calendar is printed semi-annually. This includes any major event such as festivals, fairs, concert and lecture series, and so much more. Start making plans to get your Spring/Summer events on the 2008 Calendar. These events are also located on our website with up to date happenings, www.montgomerycountyny.com.

The Dining, Lodging, and Specialty Guide along with Calendar of Events have been distributed to several local businesses. They are also available in The Chamber's office, 12 South Bridge Street, Fonda across from the fairgrounds. For more information call Gina DaBiere-Gibbs, (518)853-1800 ext. 13.
